PRODUCTS I WORK WITH

GUINOT PARIS

This company has over 50 years experience in skin care. Guinot was the first brand to create skin care products with the Cellular Life Complex, which contains 56 biological active ingredients.

These ingredients are used in hospitals to create new skin especially in the treatment of serious burn victims.

Enriched with the Cellular Life Complex, Age Logic Cellular owes its exceptional cell renewal activity to ATP, a biological energy molecule capable of boosting skin cells that have become dormant over time.
